The list is only a portion of what is covered in this sixteen hour course, that includes testing and receiving certification as a CCM, from the Midwest Association of Housing Cooperatives.

The participant who has received any other training in Cooperative Housing will be impressed with the amount and quality of information given in this course.

Certified Cooperative Maintenance Manager (CCMM)

A class designed for Maintenance Personnel that have the duties of regular maintenance at a Cooperative Housing Property, as well as any Cooperative member or other staff that want to know more about the Cooperative Maintenance Process.

This class will not teach you what tools you need to fix a refrigerator, but it will teach you what tools you need to understand what a Cooperative is and your role in this unique form of housing.

You will receive the tools to help you with the ethics, maintenance plans, Cooperative goals, inventory control, working with contractors, and much, much more. MAHC has endorsed this eleven hour program for any staff and the completion and passing of a final test of this course will earn the attendee a Certification.
